

# GN 9350

## Style and superior sound. Wireless desk and IP telephony.

The high-performance GN 9350 is the ultimate example of wireless office headset functionality. For use with both traditional desk telephones and IP telephony, the dual connection of the GN 9350 always meets your needs. Feel the benefits of hands-free flexibility and an extremely lightweight, ergonomic and futureproof design.

- DSP and IntelliTone™ for superb sound quality and greater hearing protection
- Futureproof investment thanks to built-in USB interface for IP telephony
- LCD display for easy set-up of personal sound preferences
- Noise-cancelling microphone for reduced background noise
- Around the clock talk time with an optional second battery
- Light-weight design and multiple wearing styles – neckband included
- Multi-unit conferencing capability

The GN 9350 makes everything sound better. State-of-the-art Digital Signal Processing (DSP) technology removes impurities from the incoming signal, enriches sound quality and maintains a safe consistent volume level. The GN 9350's sleek boom-arm with noise-cancelling microphone means your voice is transmitted clearly, even in noisy environments.

When used with IP telephony applications the GN 9350 is the first wireless headset to provide wideband audio, with an astounding 6.8 kHz range – twice that of conventional telephony. The quality of conversation is enhanced and your conversations will sound better than ever before. This high definition sound will increase the productivity of all your IP conversations.

You decide how you walk and talk. The GN 9350 is exceptionally easy and intuitive to use. The simple to operate controls and sophisticated LCD display on the base unit, allow you to set call parameters such as volume and audio output to suit your individual preference. With a market-leading range of up to 100 metres, you can fully explore all your office's possibilities. The conference call capability broadens your communication potential and an optional second 9 hour, user replaceable battery means you can talk around the clock.
