

# The Konftel 55 series

## for web meetings and teleconferences

The Konftel 55 and the Konftel 55Wx form a series of simple-to-use, versatile conference units delivering impressive, crystal-clear sound thanks to the patented OmniSound® audio technology.

The Konftel 55 series has been specially designed to be the hub of your communications. Connect your computer, mobile phone/tablet and desktop phone for effortless meetings with superior audio quality. Moreover, VoIP can be bridged with calls via a desktop or mobile phone. Switch easily on the smart touch screen that only displays the current connections.

The Konftel 55 series has recording capability. Calls and dictations recorded on the memory card can be played back, saved or shared. These highly portable devices look as good on the desktop as in the conference room. The difference between the models is that the Konftel 55Wx has Bluetooth® with support for wireless HD audio, a battery and can be upgraded with expansion microphones for large meetings. You decide which one best suits your needs.

### SHARED FEATURES IN THE KONFTEL 55 SERIES:

- Flexible connectivity options: computer, desktop phone, mobile phone/tablet

## The Konftel 55

### The hub of your communications

The Konftel 55 is a highly versatile conference unit that brings superb audio quality to all your desktop, home office and conference room meetings.

## The Konftel 55Wx

### The wireless hub of your communications

The Konftel 55Wx is the optimal conference unit that brings superb audio quality to all your desktop, home office and conference room meetings. With a battery, Bluetooth and support for expansion microphones.

## Connections

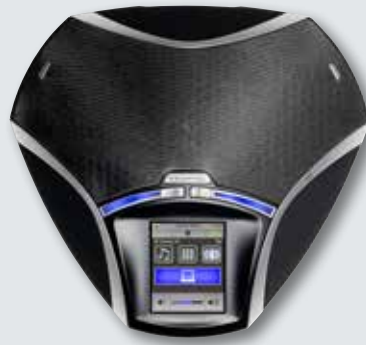

### VOIP AND WEB MEETINGS

USB or wireless connection via Bluetooth® to PCs for IP calls and web meeting services. UC integration with Microsoft Lync/Skype for Business, Cisco Jabber and Avaya.

### MOBILE PHONE AND TABLET

The Konftel 55Wx has Bluetooth® and connects wirelessly to other devices fitted with Bluetooth®. Mobile cables are available as accessories for the most popular phones.

### HEADSETS

Continue using your headset by connecting it to Bluetooth® or the 3.5 mm cable (optional accessory). Click on the icon to switch between calls via the headset or conference unit.

### DESKTOP PHONE

The Konftel 55/55Wx integrates with the PBX via a simple connection to the desktop phone headset port with an adapter (optional accessory) or USB port.

## OmniSound® – Superior audio quality

The patented OmniSound® audio technology guarantees an impressive and crystal-clear full-duplex audio in both directions. The sound is transmitted clearly and powerfully to all attendees thanks to a hypersensitive microphone with 360° audio pick-up and speakers. OmniSound® delivers HD audio in calls over IP and provider networks. It also incorporates automatic echo cancellation and noise suppression, which minimises background noise interference.

This means you can walk around in the room, talking, discussing and debating with others without loss of audio quality and without any annoying sound clipping, damping or echoes. It's as close to real sound as you can get.
